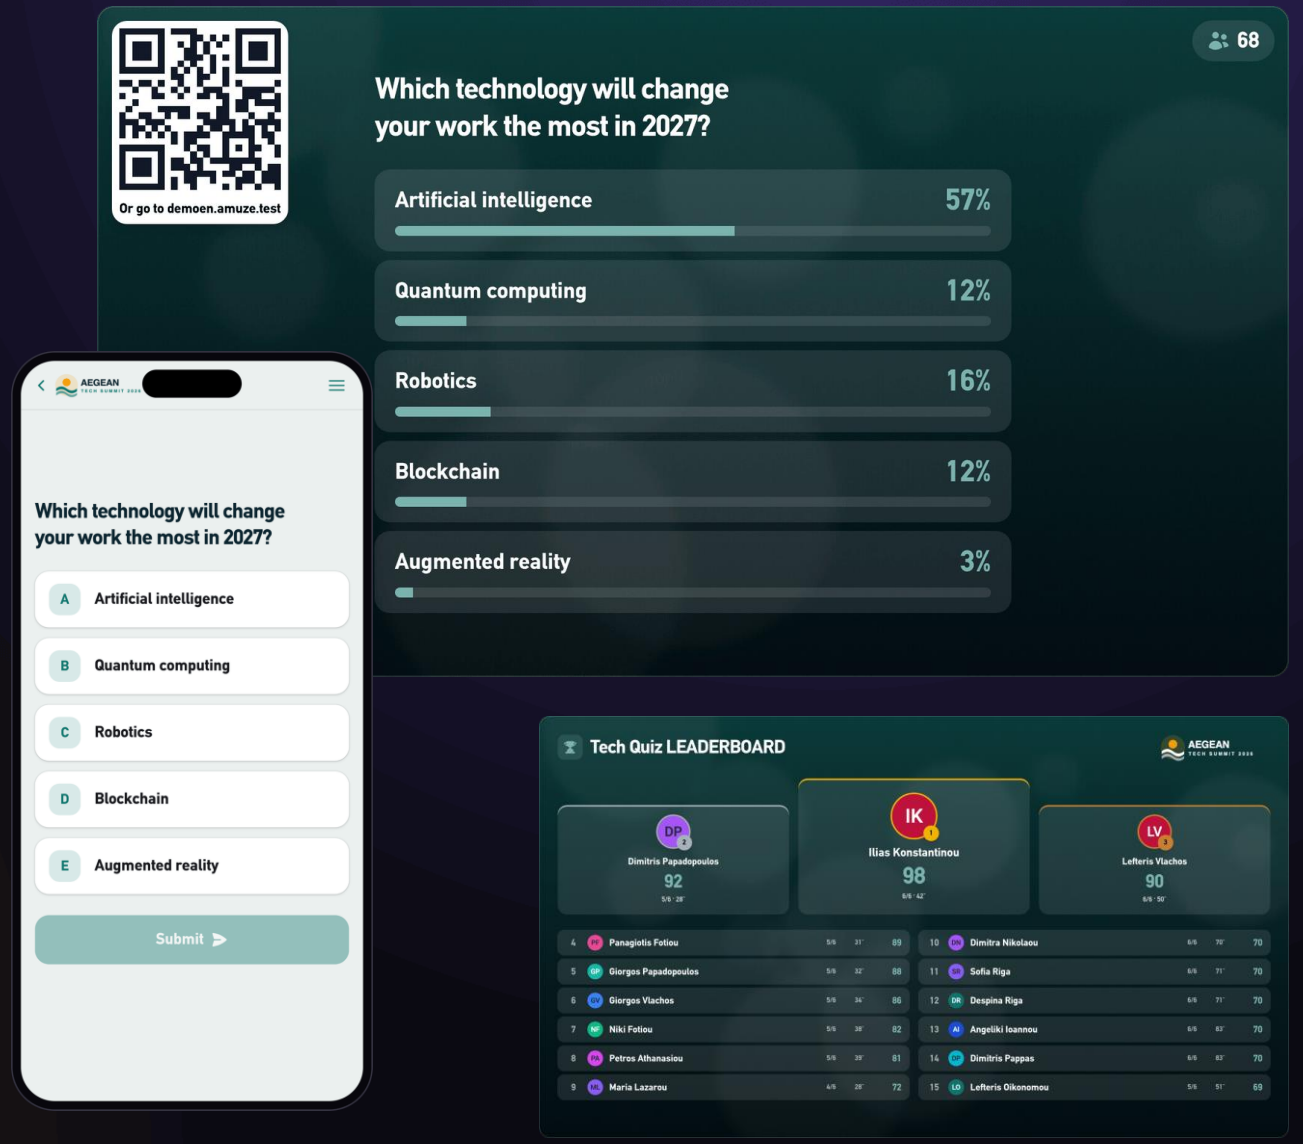
amuze

THE INTERACTIVE EVENT PLATFORM

Turn every audience into part of the show

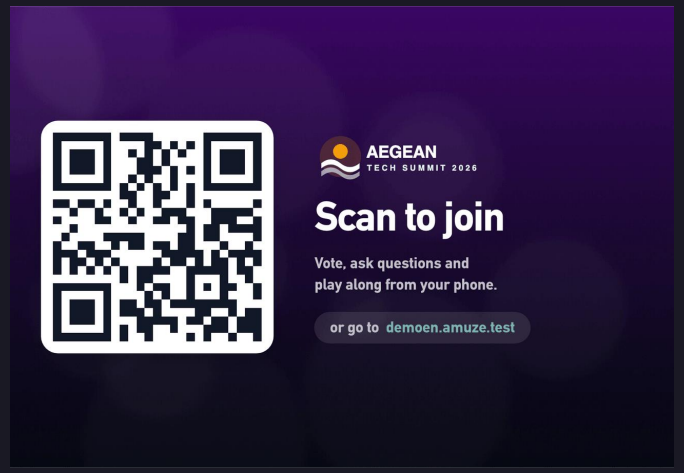
Amuze connects every phone in the room to your stage. Votes, questions, quizzes and games land on the big screen the moment they happen, while your team runs the whole show from one place.

No app to download · No accounts · Scan a QR code and you are in



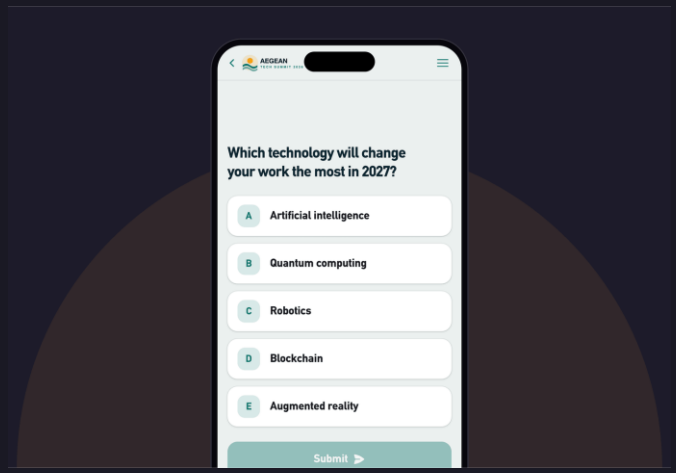
HOW IT WORKS

From a QR code to a room that plays along



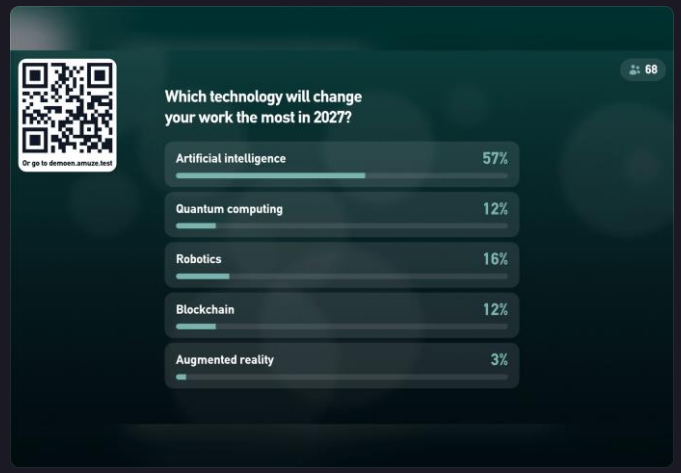
1 Scan

Guests point their camera at a QR code. Your event opens in their browser, in your colours, with no download and no sign-up.



2 Take part

They vote, ask, react, upload photos and play, anonymously or by name. You decide what is open and when.



3 Watch it happen

Results, leaderboards and messages animate on the big screen and over your live stream in real time.

ENGAGE · MOST USED

Live voting and polls

Multiple choice, ratings and free text. Results animate on the big screen the moment a guest taps.

13 ways to show results

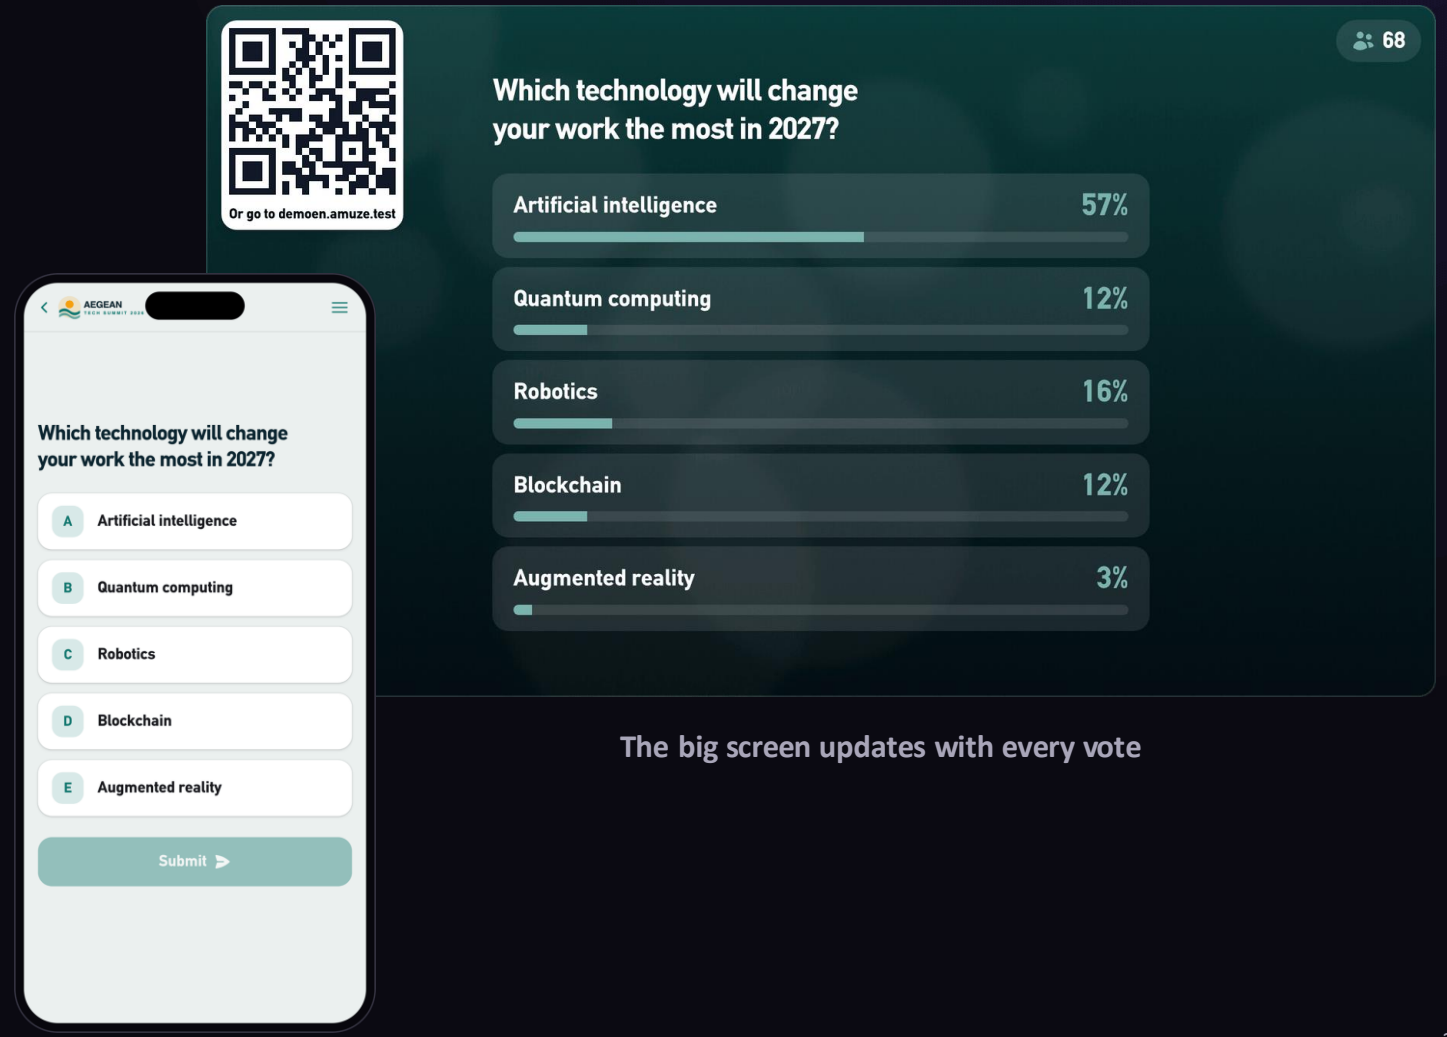
Bars, percentages, word clouds, ratings, the fastest answer

Live, step by step or survey

Run it with the speaker, or let guests answer at their own pace

Reactions and talk to the host

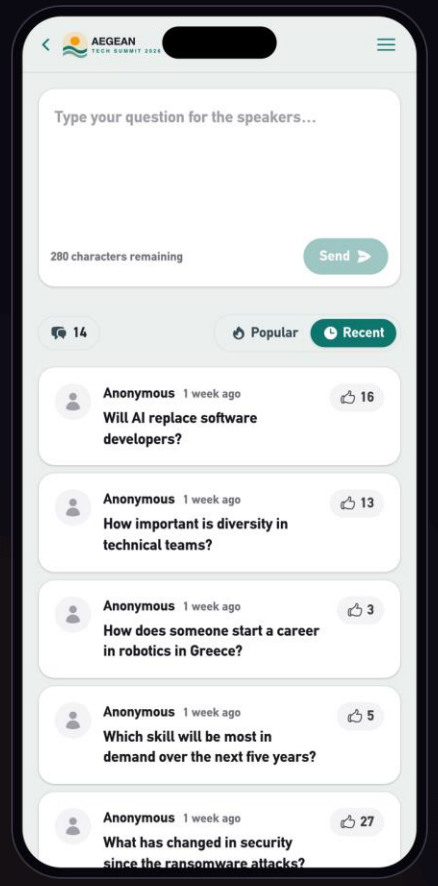
Guests react to results and send a word to the stage



The big screen updates with every vote

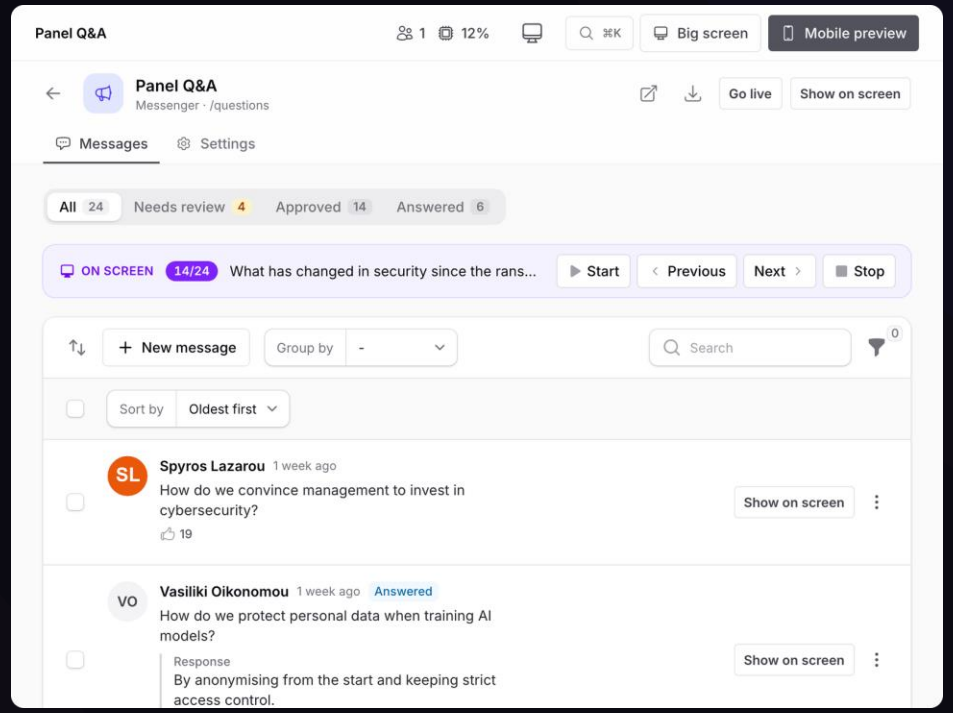
ENGAGE

Q&A with moderation built in



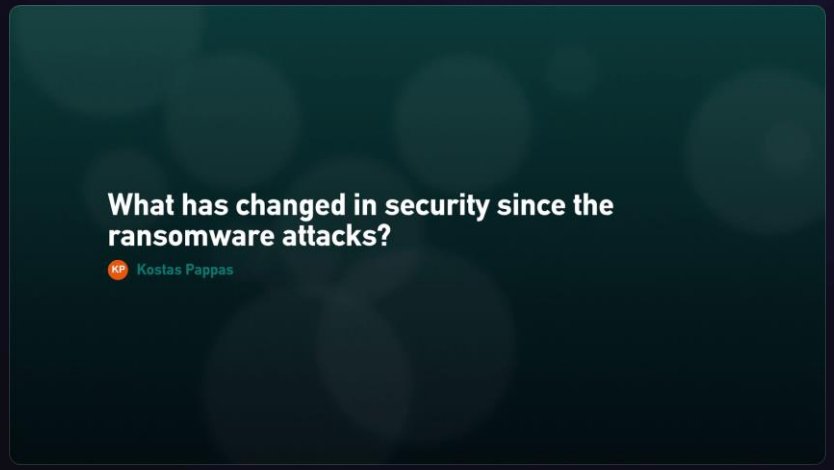
Guests ask and upvote

Anonymously or by name, with a swear-word filter



Moderators approve

Needs review, approved and answered, from any device



The screen shows the one you pick

Start, Previous and Next walk through the approved list

GAMES AND QUIZZES

Game shows the room will talk about

Quiz
Speed and accuracy decide the podium

Tap Race
Everyone taps for their team

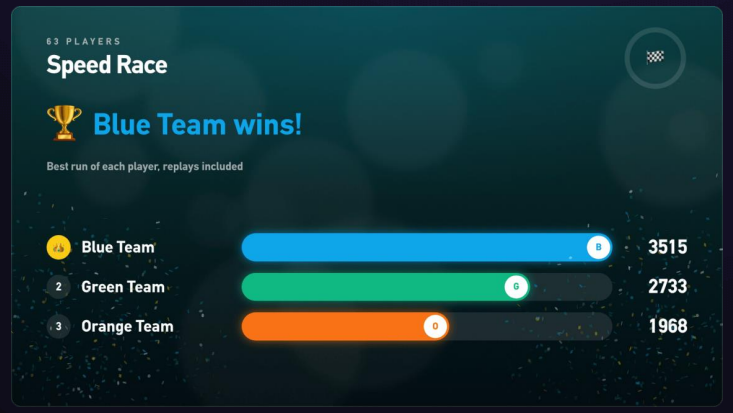
The 1% Club
Wrong answers thin the crowd

QR Scavenger Hunt
Find codes hidden around the venue

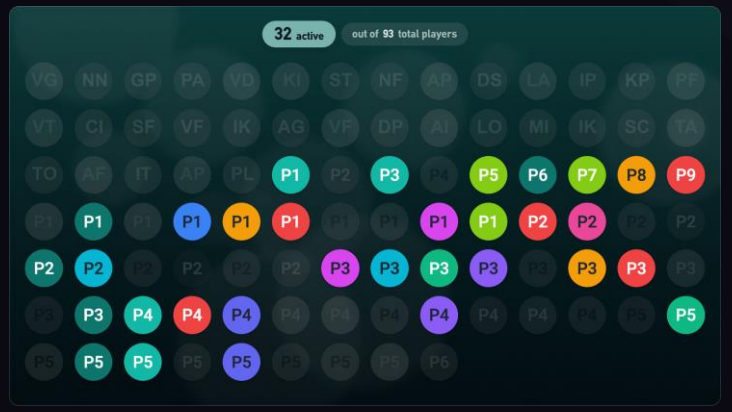
Persona Quiz
Every guest gets a persona

Leaderboard
Team scores and times

Quiz podium



Tap Race



The 1% Club

Scavenger Hunt

ENGAGE

Put the audience on the big screen

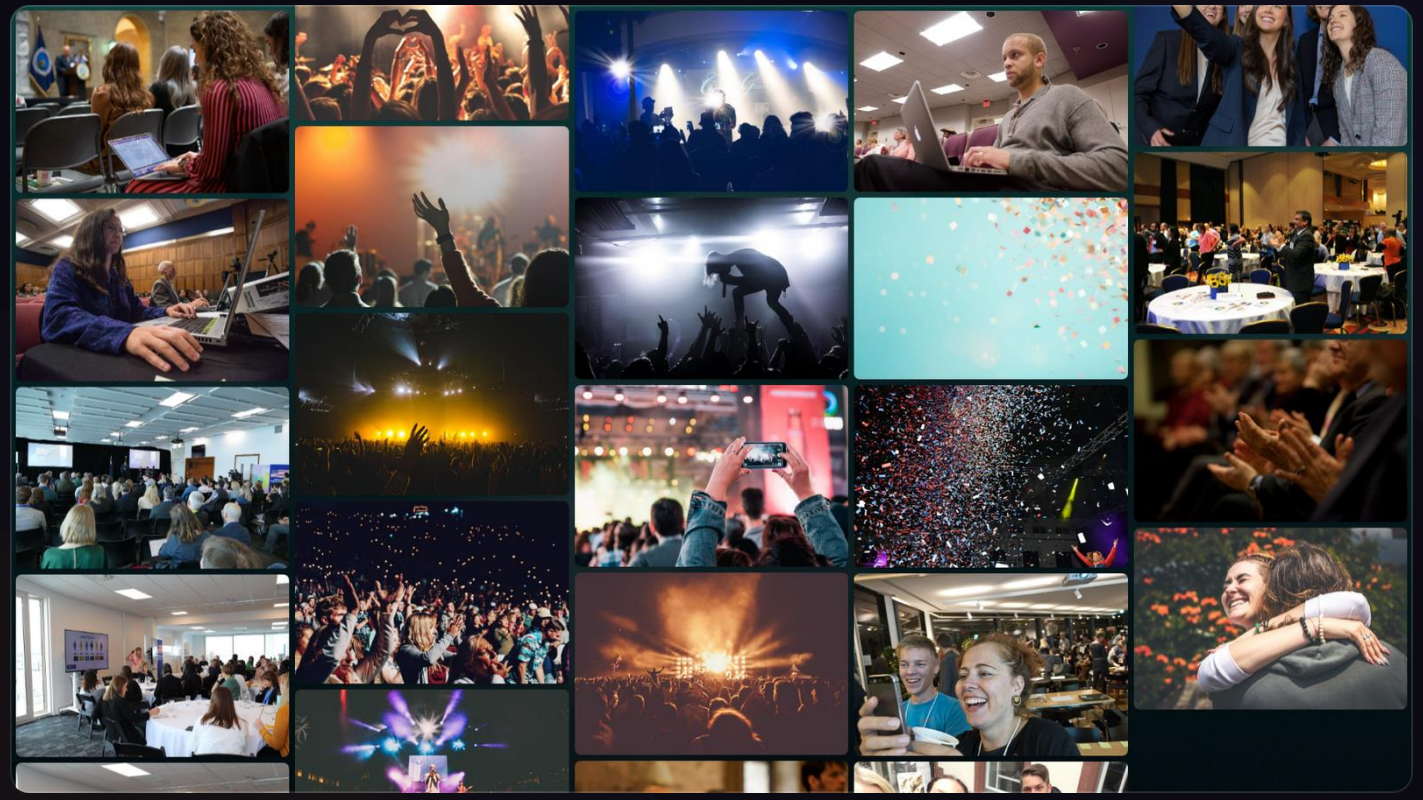


Photo wall

Guests upload, you moderate, the best play as a slideshow or collage

Live reactions

Hearts, stars and applause float across the screen in real time

Wish wall

Messages float in a 3D cloud, as sky lanterns, on a pinboard, as stars or typed out

AT A GLANCE

One platform for the whole event

32

interactions and utilities, ready to switch on

0

apps to install. It runs in the browser of any phone

24

live big-screen views, 6 of them stream overlays

100%

your brand: colours, logo, font and domain

13

ways to show poll results

6

team roles with their own access

17

run-of-show cue actions

15

interactions with Excel results

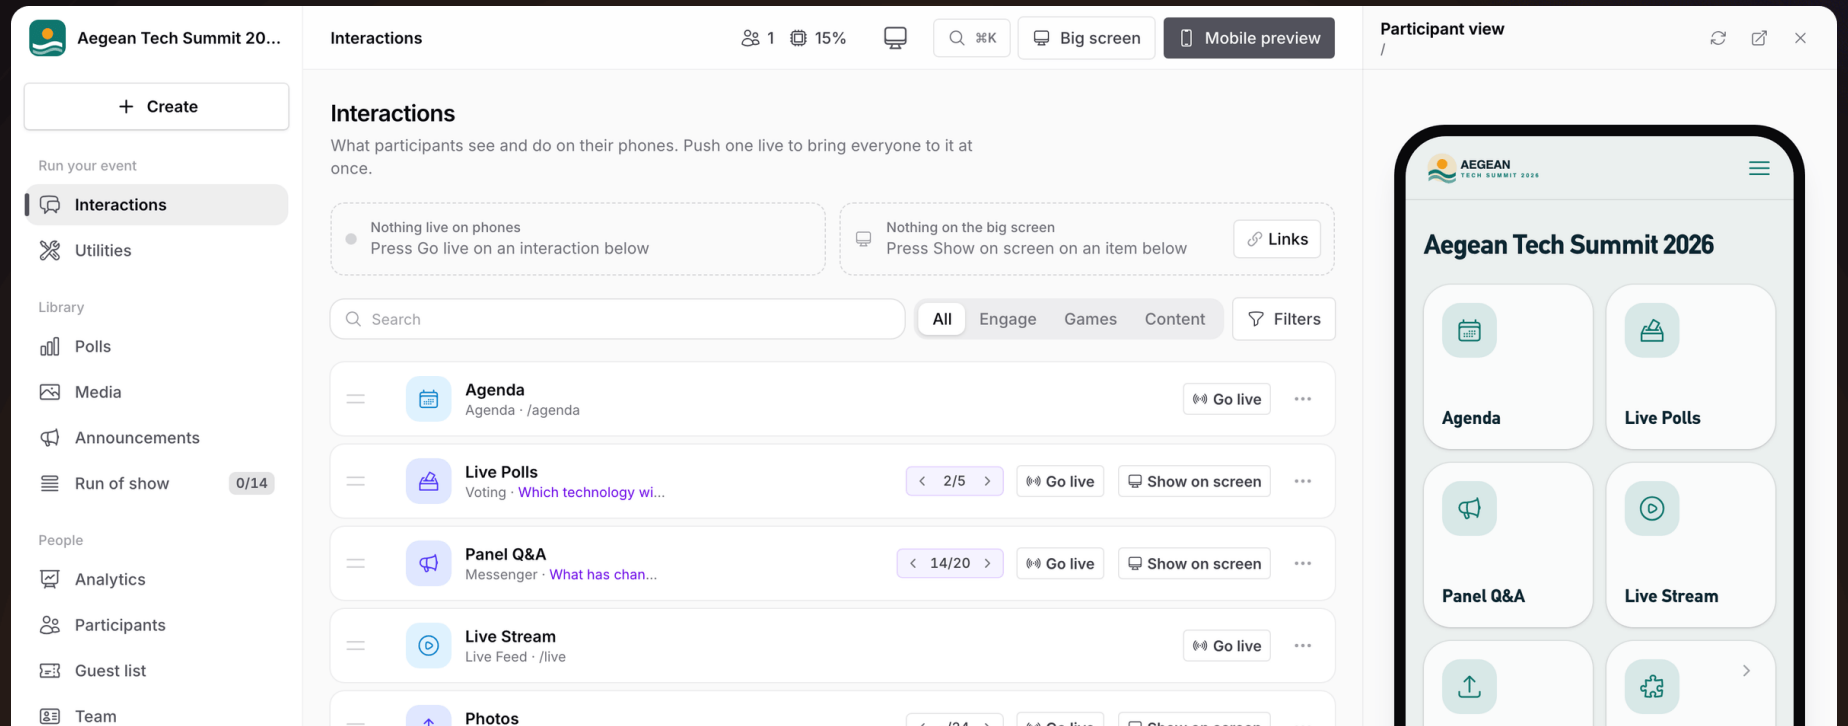
2

languages: English and Greek

THE ADMIN PANEL

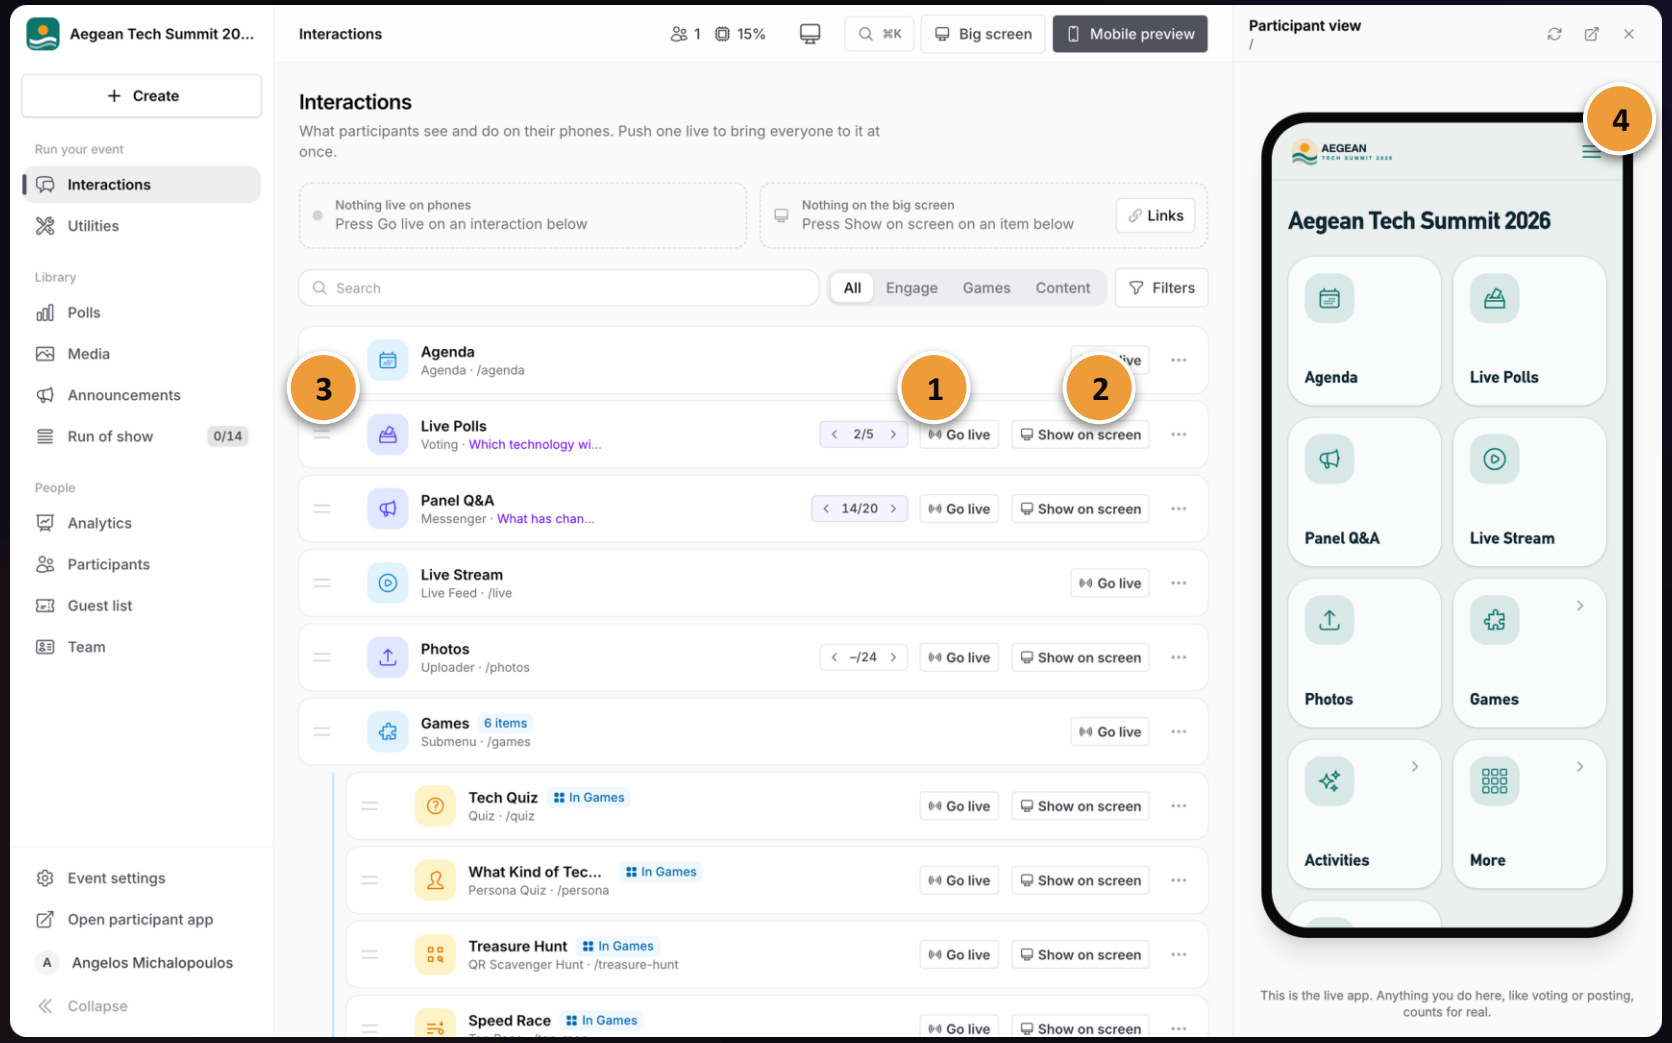
Run the whole show from one place

Build every interaction, preview it on a phone and take it live without a line of code.



EASE OF USE

Everything live is one click away



1 Go live

Push any interaction to every phone at once.

2 Show on screen

Send it to the big screen with one click.

3 Drag and drop

Reorder the menu and nest pages in folders.

4 Mobile preview

The real guest app stays beside you while you work.

HOW YOU MAKE A NEW INTERACTION

Three steps from idea to live

1 Pick what to run

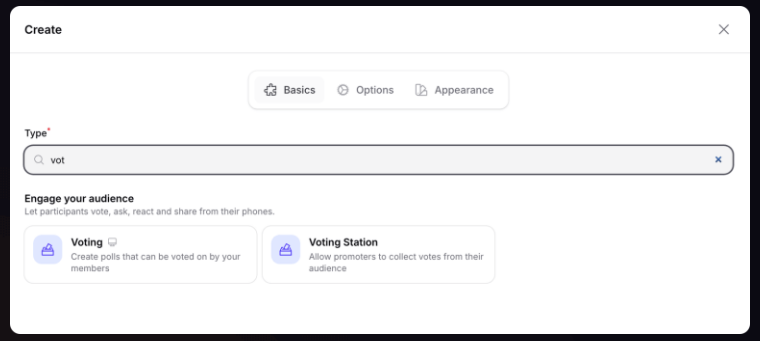
Type what you need, or browse all 32 types grouped by Engage, Games, Content and Utilities.

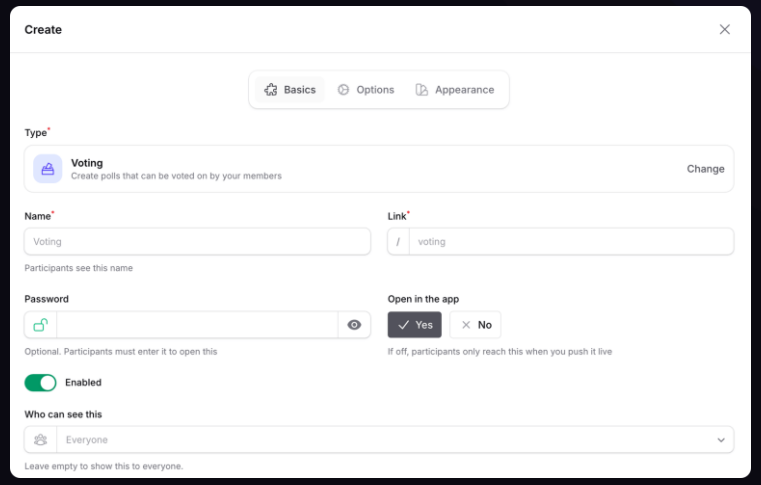
2 Name it

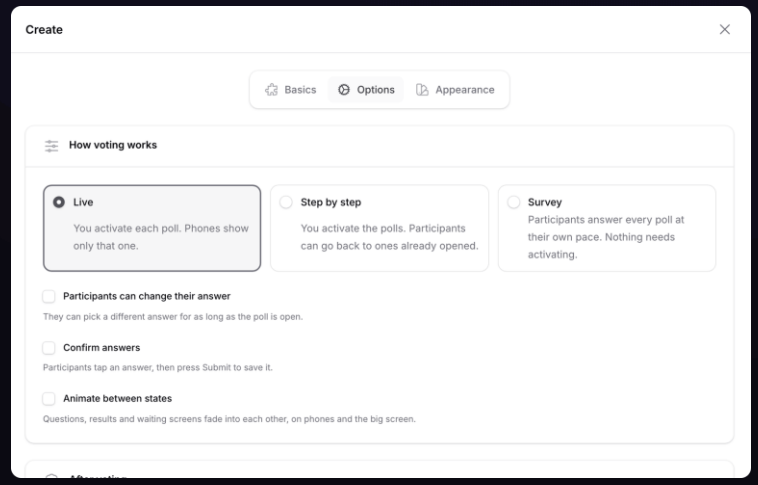
The link fills itself in. Add a password, or show it only to one group.

3 Tune and create

Each type has its own options and look. Create, then push it live.



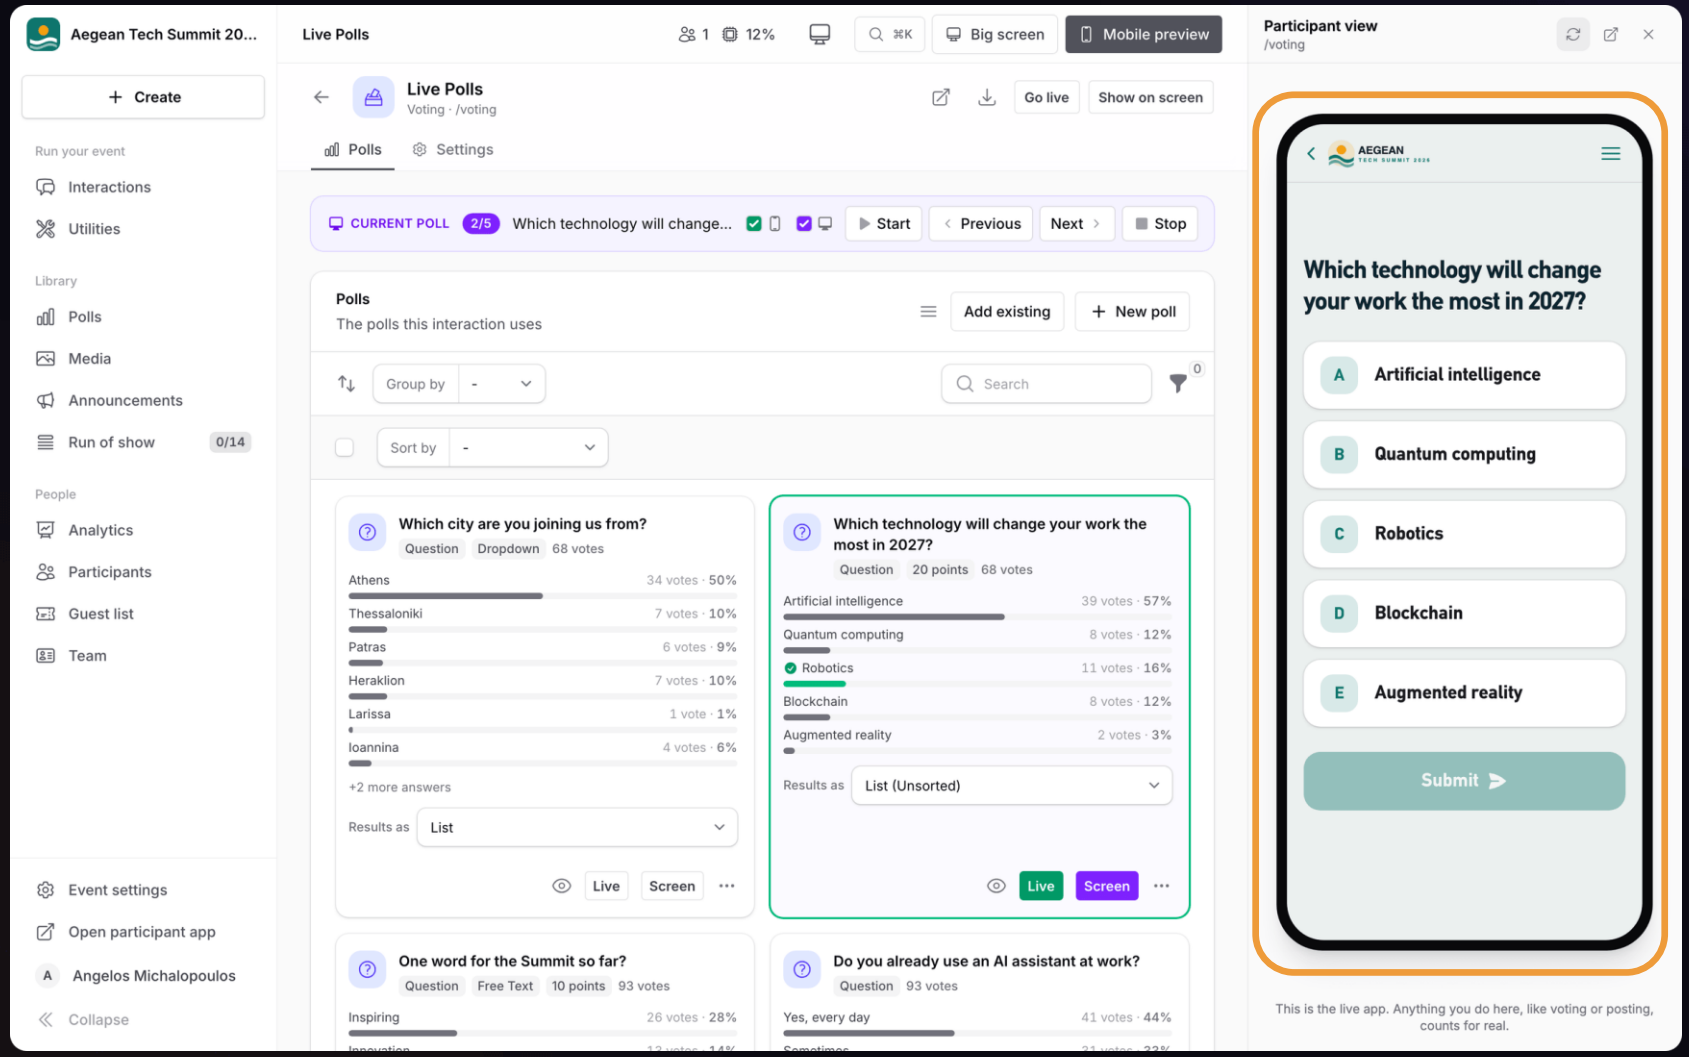




No code, no designer, no app store.

LIVE MOBILE PREVIEW

See exactly what guests see while you edit



The real guest app

Not a mock-up: the same app guests open

Follows your page

It opens the interaction you are editing

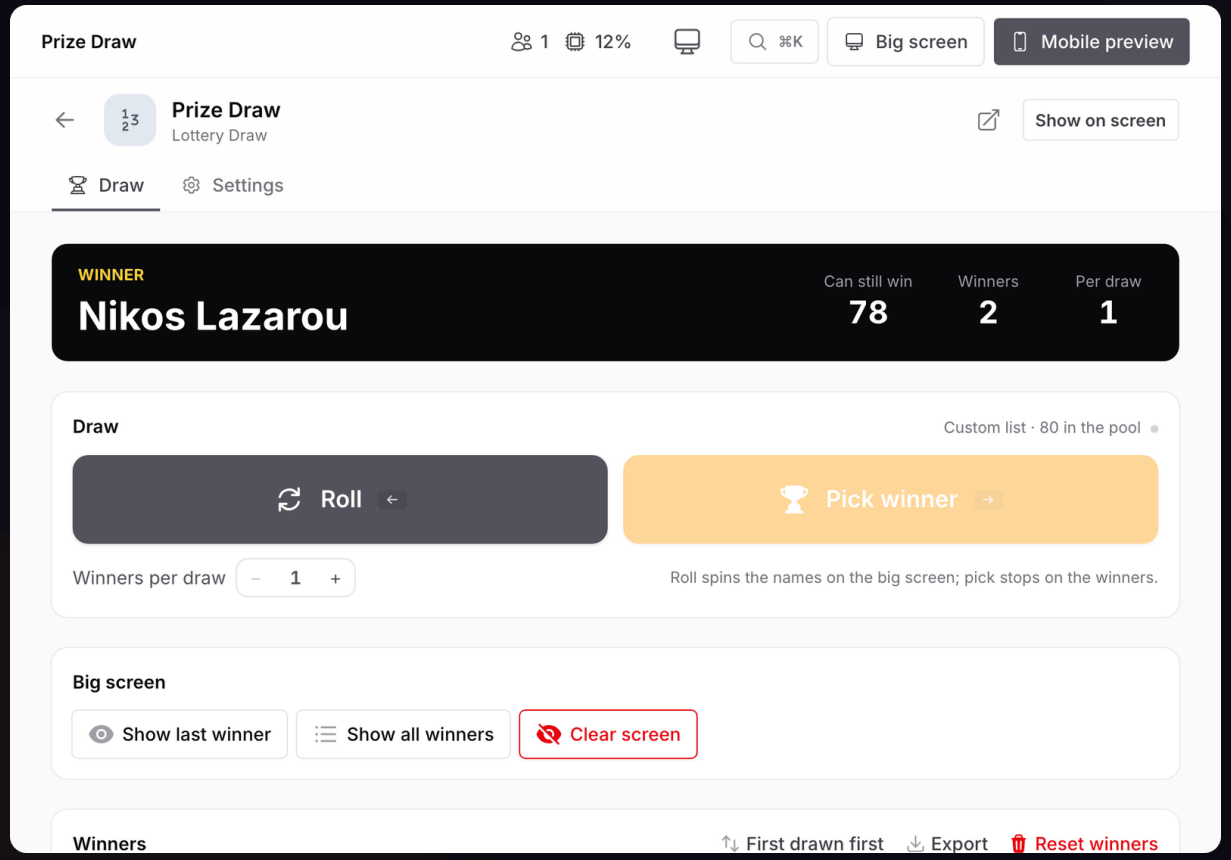
Live as you change it

Make a poll live and it appears at once

Votes and posts made in the preview count for real.

DURING THE EVENT

Operate the show live



Utilities open on their live control tab: here, a prize draw

Start, Previous, Next

Step through polls and questions on phones and screen

Go live and Show on screen

Decide what phones and the big screen show, separately

Announcements

Full screen, pop-up or push, to everyone, a group or one guest

Command palette

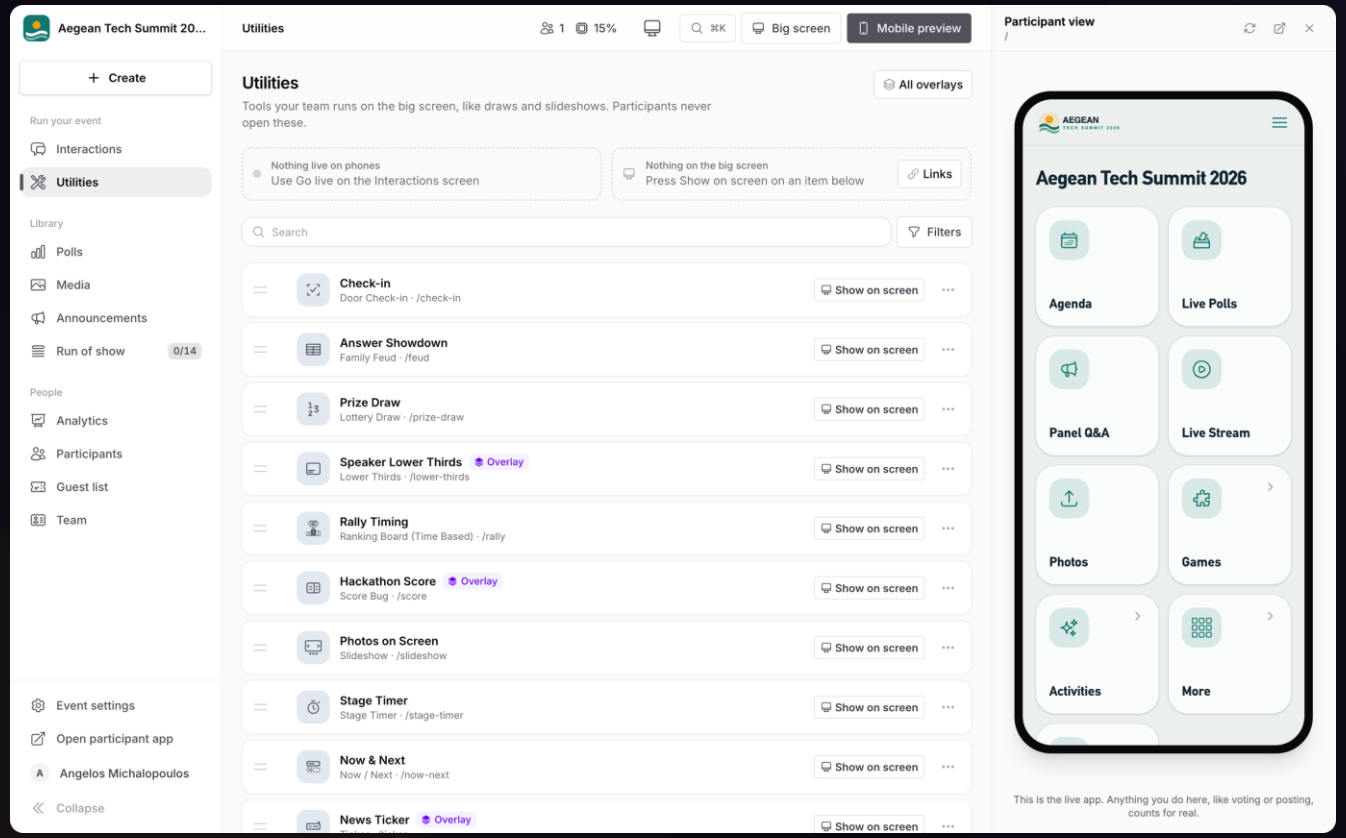
Press ⌘K and type: every live action is a keystroke away

Moderation

Approve messages and photos before they reach the screen

UTILITIES

A big-screen toolbox for your crew

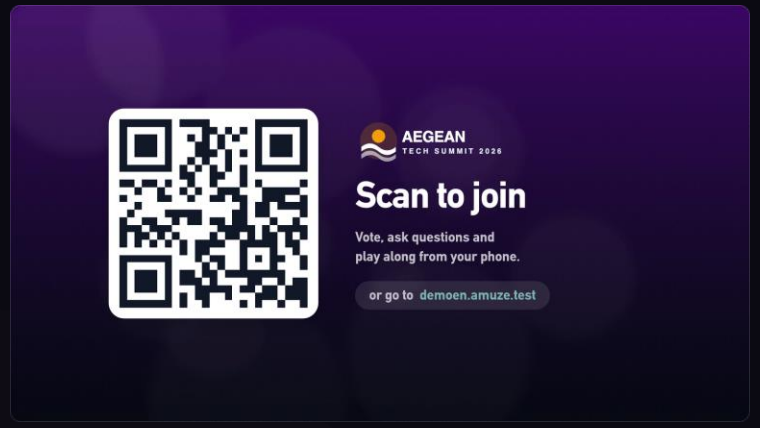


Participants never open these. Your team runs them on the screen, the stage and the stream.

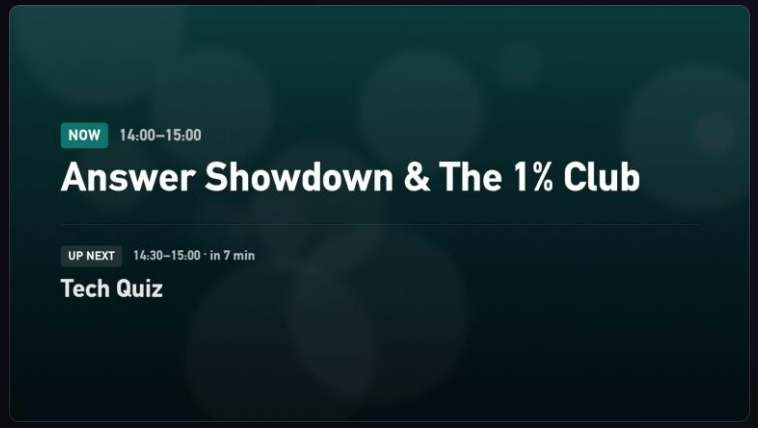
- Lottery Draw
- Slideshow
- Wish Book
- Family Feud
- Welcome Screen
- Door Check-in
- Stage Timer
- Now / Next
- Lower Thirds
- Ticker
- Score Bug
- Ranking Board

ON THE BIG SCREEN

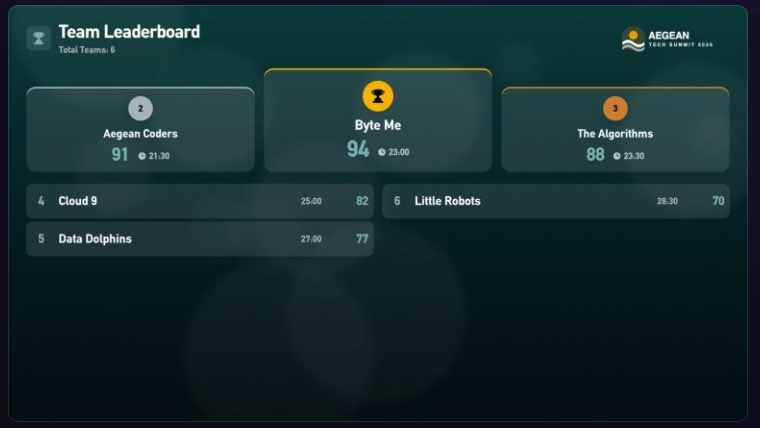
Every screen in your brand, ready on day one



Welcome screen

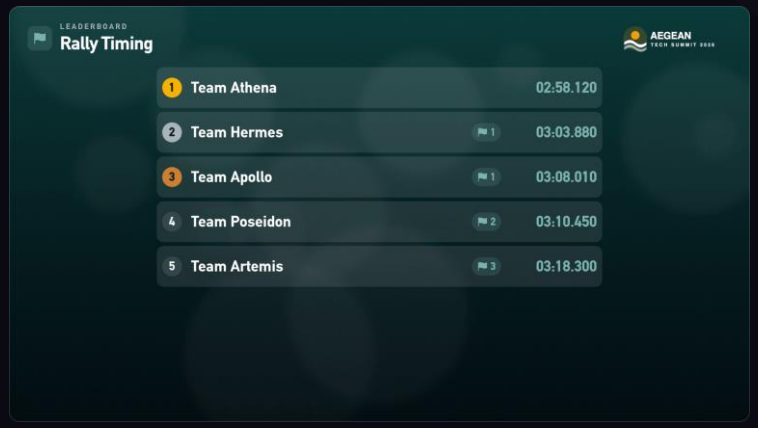


Now / Next

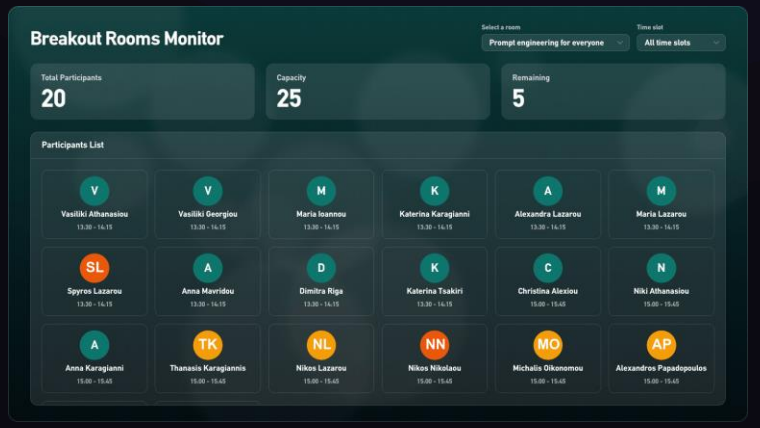


Team leaderboard

Persona results



Ranking board



Breakout rooms

LIVE PRODUCTION

Built by people who run shows

Run of show

Line up every cue and fire them one by one: a poll, results, a lower third.

Broadcast overlays

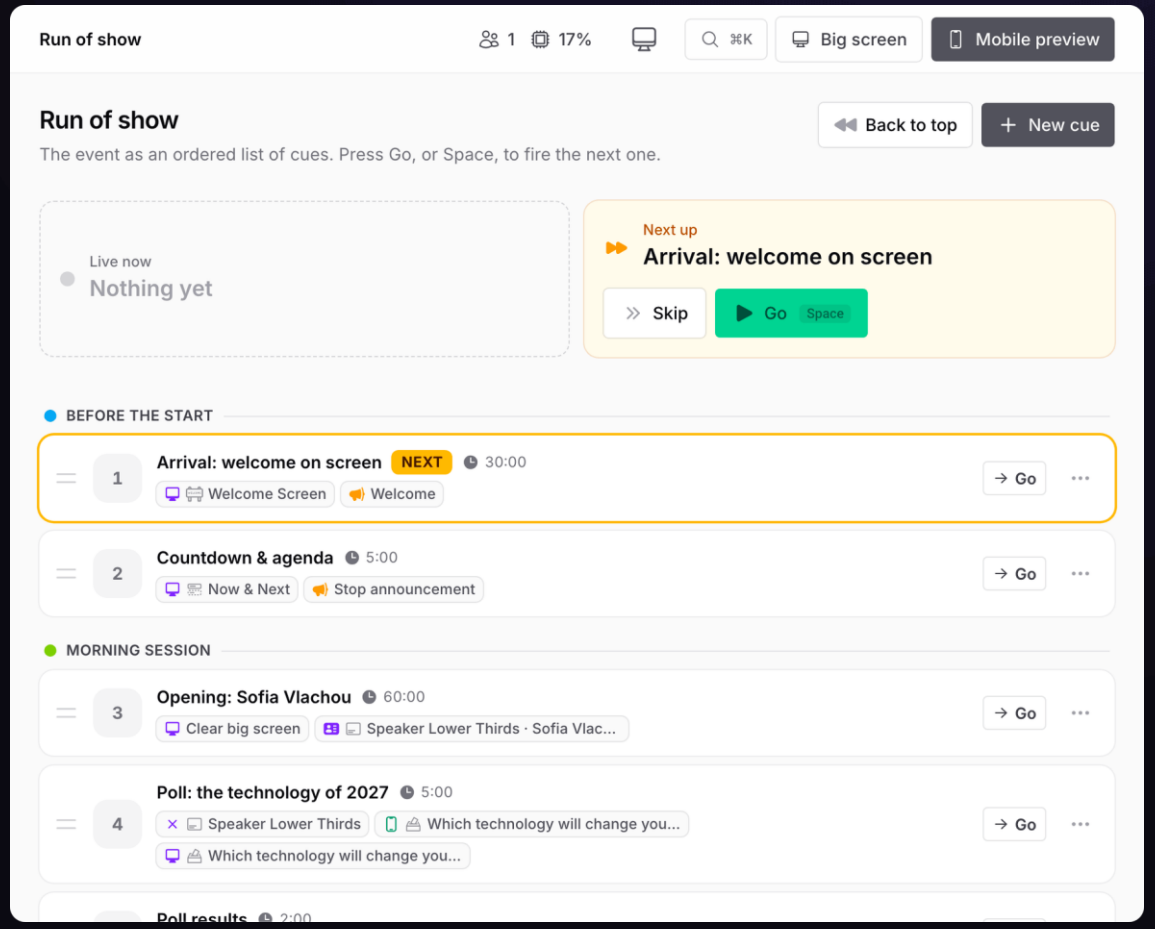
Lower thirds, ticker, score bug and now/next with transparent backgrounds for OBS or vMix.

Stream Deck and API

Physical buttons with the Stream Deck plugin, or your own tools through the remote API.

Data feeds

Live results as JSON or XML for vMix, Singular and CasparCG.



GUESTS AND REGISTRATION

From the invitation to the front door

Registration forms

Attendance, plus-ones and details, with spam protection

Guest lists and invitations

Import a spreadsheet, send branded invitations with a sign-in link

Door check-in

Scan QR tickets or search by name. Works offline

Welcome screen

Greets every guest by name as they check in

Targeted announcements

Everyone, a group, a breakout room or one lucky guest

Lottery draws

Random winners with a draw worth watching

ANALYTICS

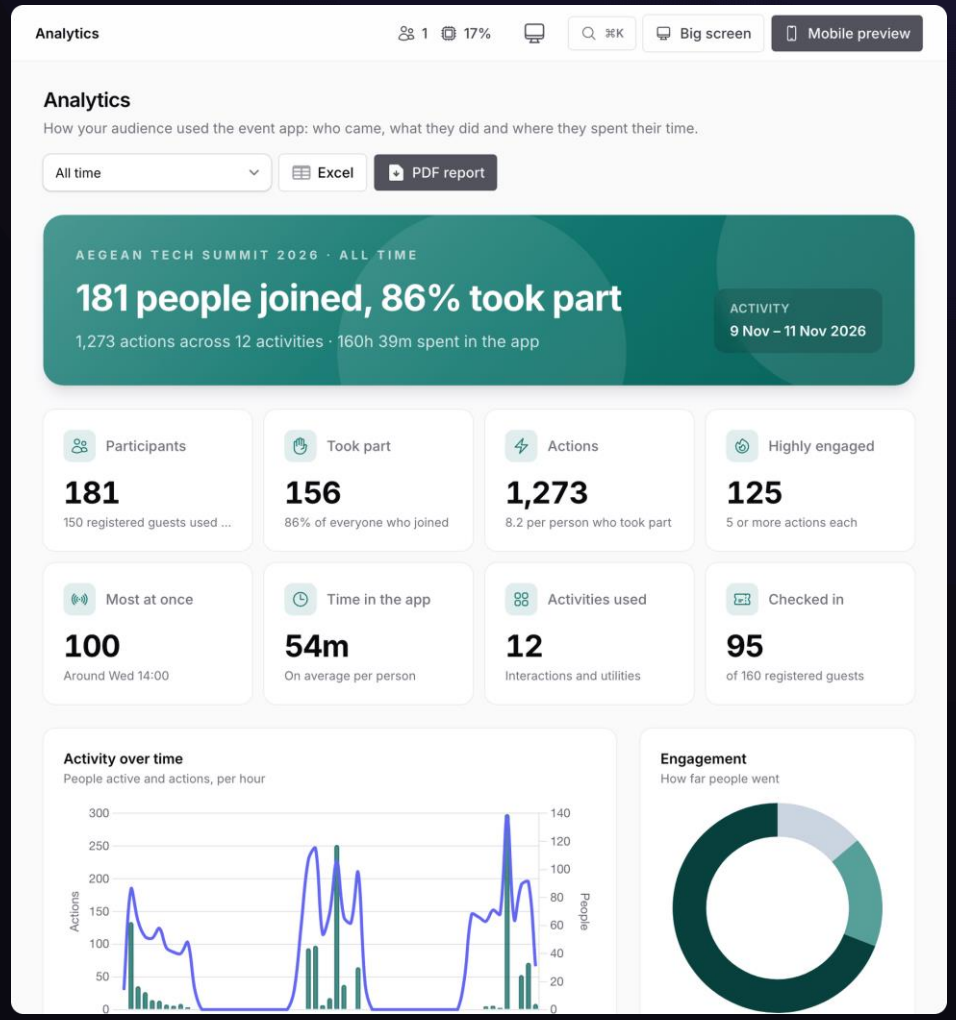
Prove engagement the morning after

Every vote, message, upload and minute spent is measured.

- Participants, engagement rate and peak audience
- A timeline of activity across the whole event
- Most active participants and most used interactions
- Print-ready PDF report and Excel exports of every result

181 joined · 86% took part · 1,273 actions

The demo event's own report, shown on the right



PLATFORM

Ready for a boardroom. Ready for an arena.

Made for large audiences

Real-time connections that scale across servers

Every event isolated

Own database, files and address, with backups

Entirely your brand

Colours, logo, font, domain and email sender

Installs like an app

Home-screen install and push notifications

Anonymous or signed in

One tap to join, or an email sign-in link

A role for everyone

Admin, editor, operator, moderator, door staff, observer

Speaks your language

English and Greek, and every text is editable

Safe by default

Bot protection, moderation, venue-only access
